SMARTMUSEUMS

MUSEUMS OF THE FUTURE

ONTOTEXT CORP

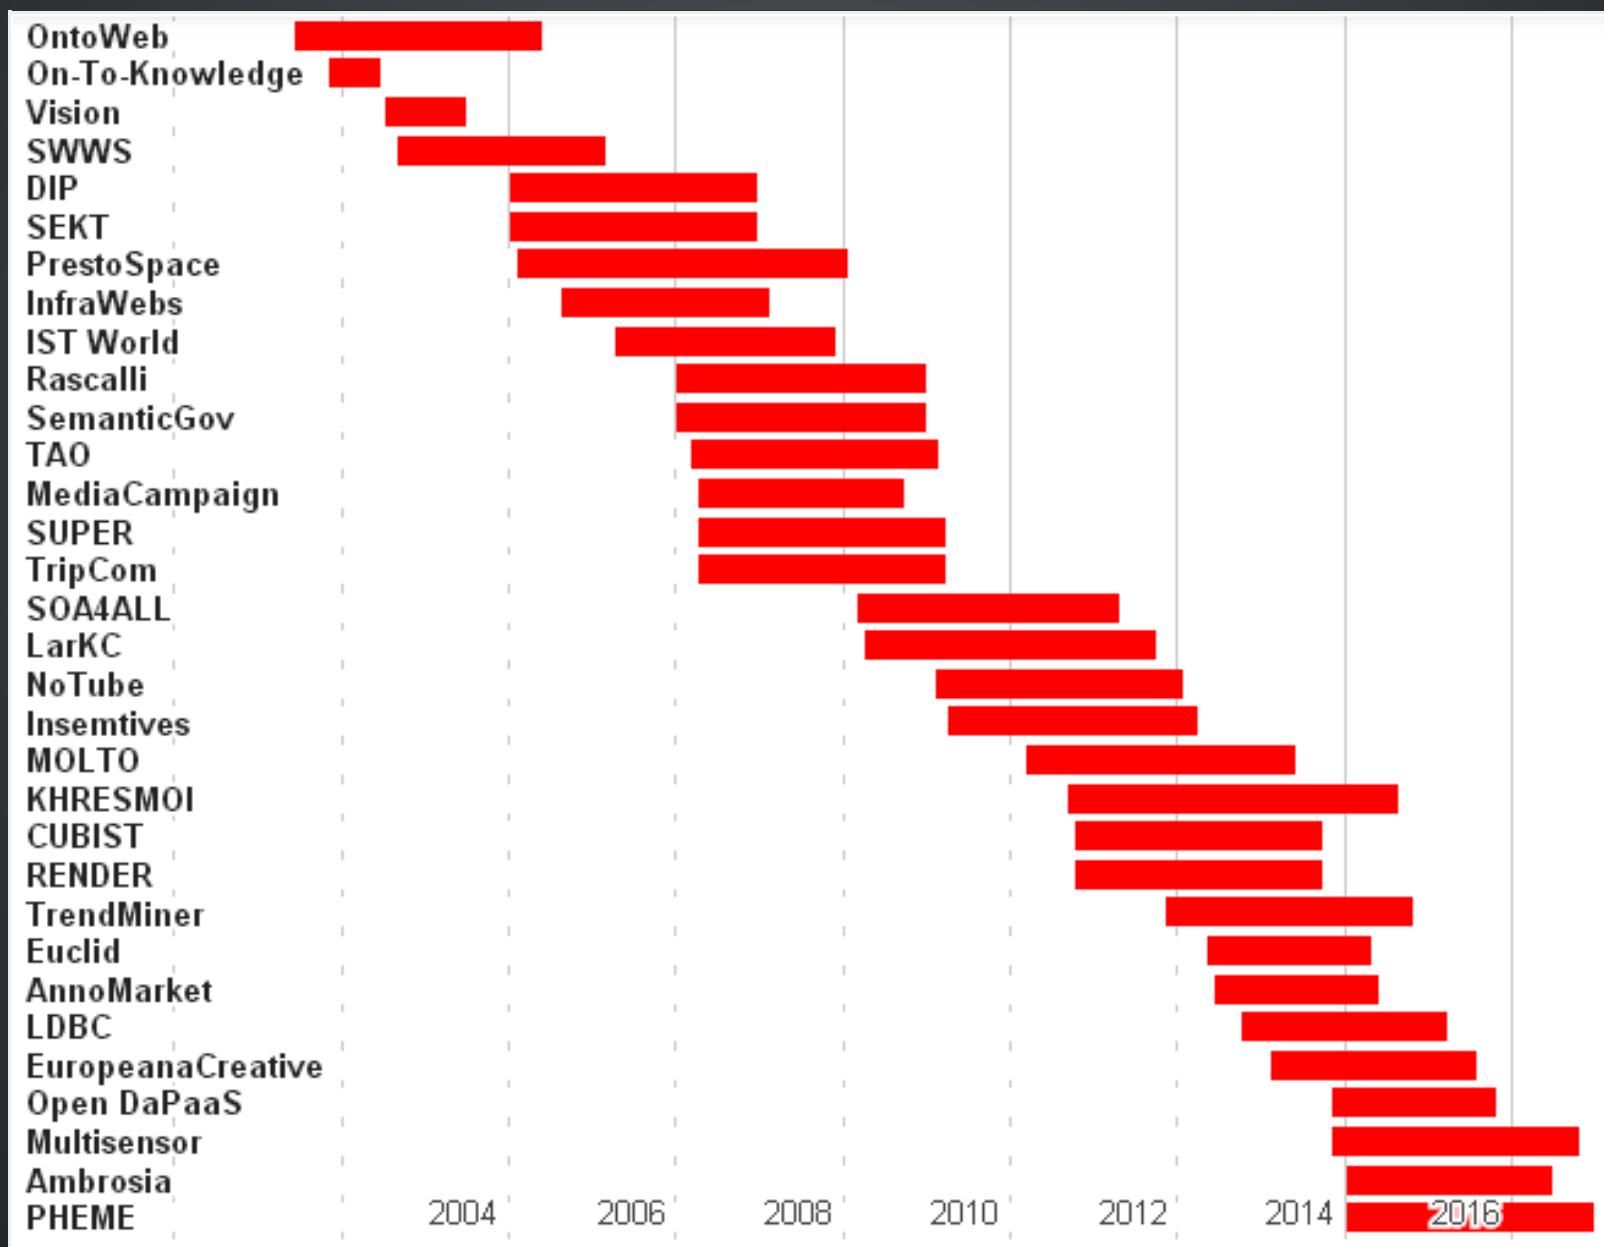

- World Leading semantic technology developer
 - Established in 2000 as part of Sirma Group
 - Spun off in 2008 after venture investment (NEVEQ)
 - 75 employees
 - Offices in Bulgaria (Sofia and Varna), UK (London), USA (New York)
 - Global leader in semantic databases and search
- Proven Delivery
 - More high-profile show cases than competitors
 - Highest profile sem web applications
 - BBC: World Cup 2010, London Olympics 2012
 - Semantic search for multinational pharmaceuticals (Astra Zeneca)
- Stable and Growing
 - Both staff and revenue growing for 12th year in a row

SOME ONTOTEXT CLIENTS

ONTOTEXT RESEARCH PROJECTS (FP5-FP7)

- Bulgaria's largest participant: over 30 projects

SEMANTIC TECHNOLOGIES

- **Web 1.0:** hyperlinked documents (World Wide Web)
- **Web 2.0:** interactive applications, the Social Web
- **Web 3.0:** interlinked data (Global Giant Graph)

Is this something new?

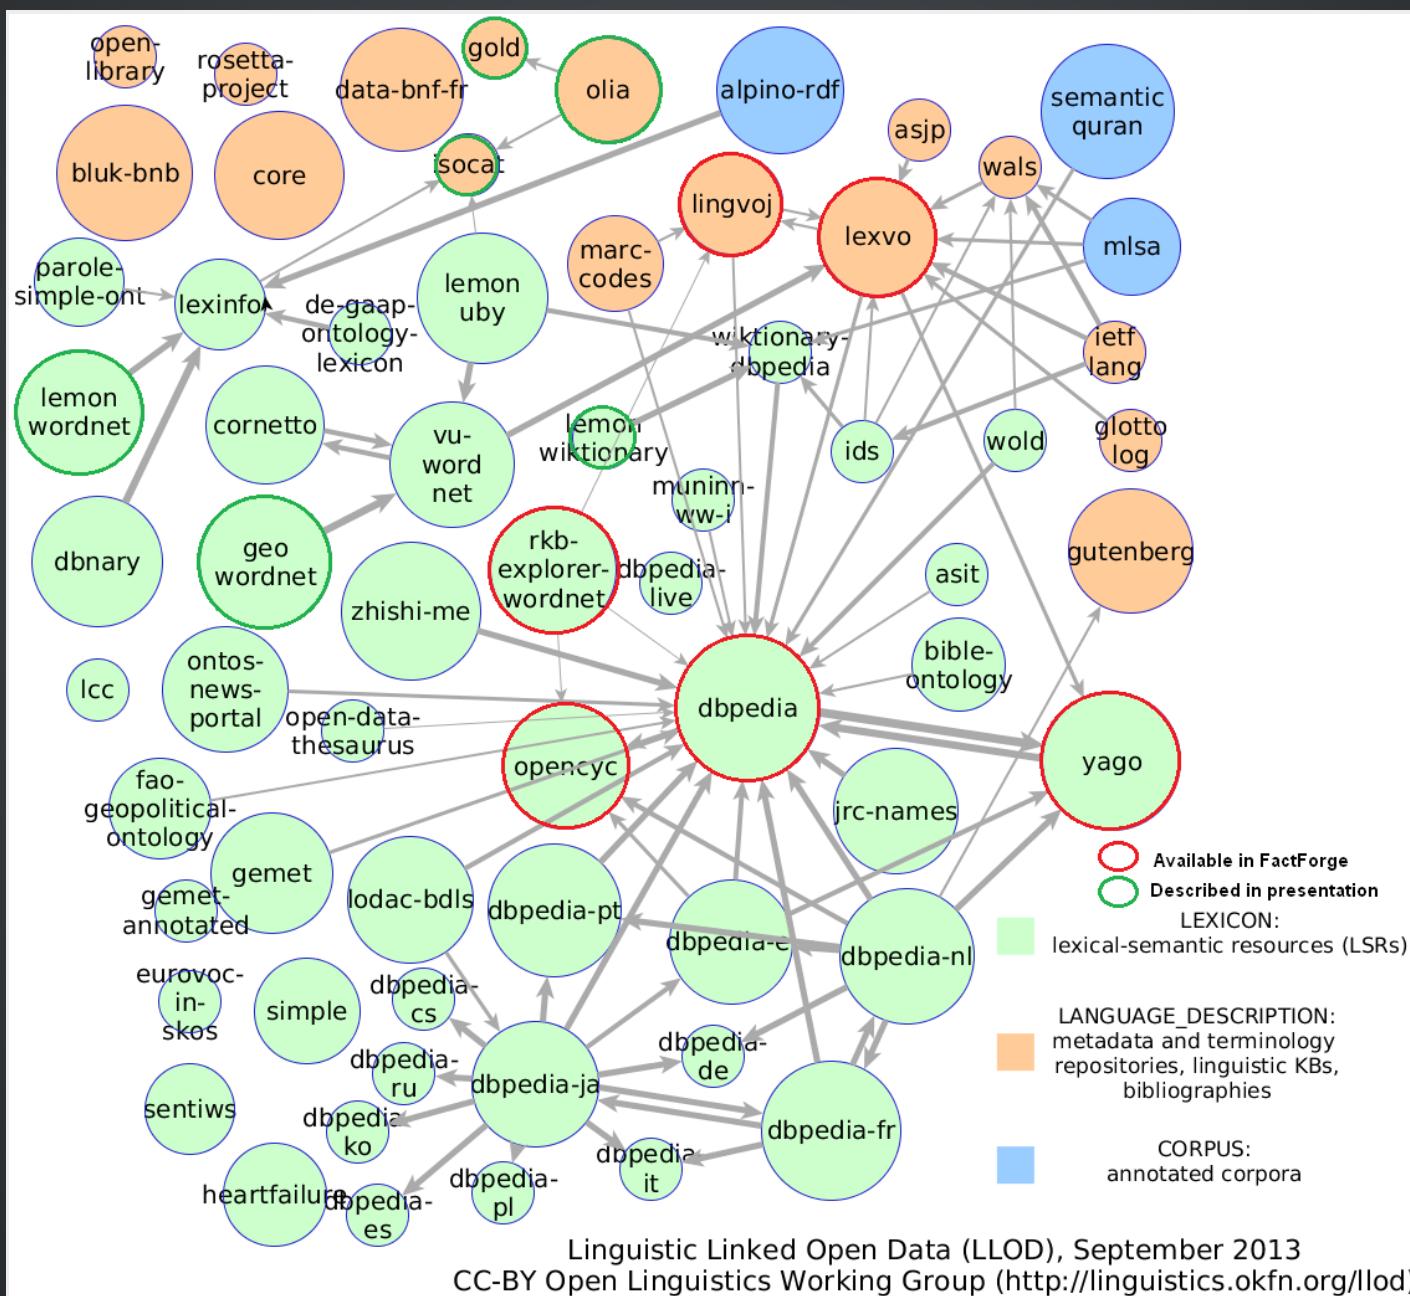

- It was all envisioned by Sir Tim Berners-Lee 25 years ago
- Standardized by W3C: both HTML and sem web standards (RDF, RDFS, OWL, SPARQL...)
- Great flurry of sem tech activity in the last 15 years
- Buzzwords: Big Data, Semantic Analytics, Concept Extraction, Sentiment Analysis...

LINKED OPEN DATA CLOUD

- This is from Mar 2009, now has grown 10x!
- Part at <http://factforge.net>, <http://linkedlifedata.com>

LINGUISTIC LINKED DATA

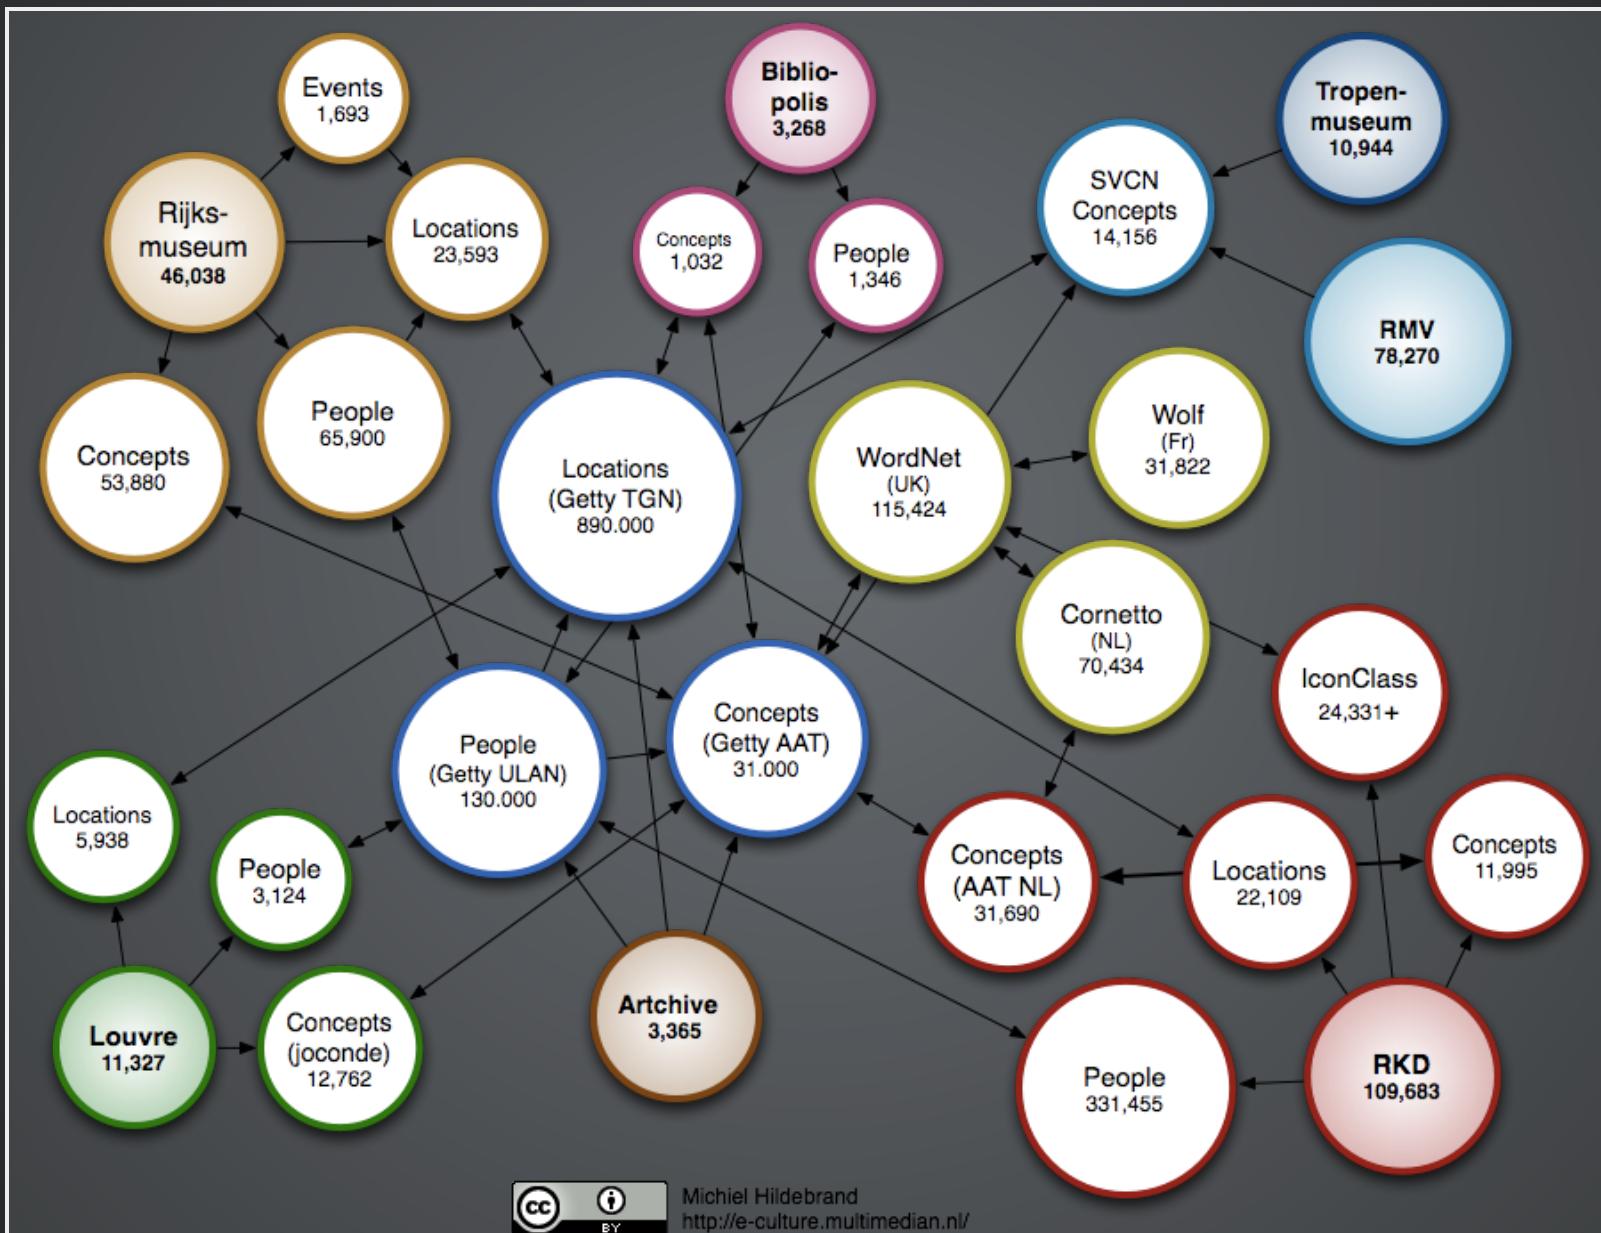

FIRST ONTOTEXT GLAM PROJECT: UK NATIONAL ARCHIVES

- Semantic index for the entire UK Government Web Archive
- **700M documents:** 42TB, 1.3B files
- 160M unique documents after de-duplication
- Background knowledge (UK Government Ontology): **5B facts**
- Automatic text analysis: **extracted 3B facts** of metadata
- Faceted semantic search in KIM
- 33K hours of cloud processing; up to 500 servers
- www.ontotext.com/case/nationalArchives-skb

EUROPEANA RECOGNIZES IMPORTANCE OF SEMANTIC TECHNOLOGIES

Press Release

The Hague – June 1st, 2010

For immediate release

Europeana Publishes First White Paper: Knowledge = Information In Context

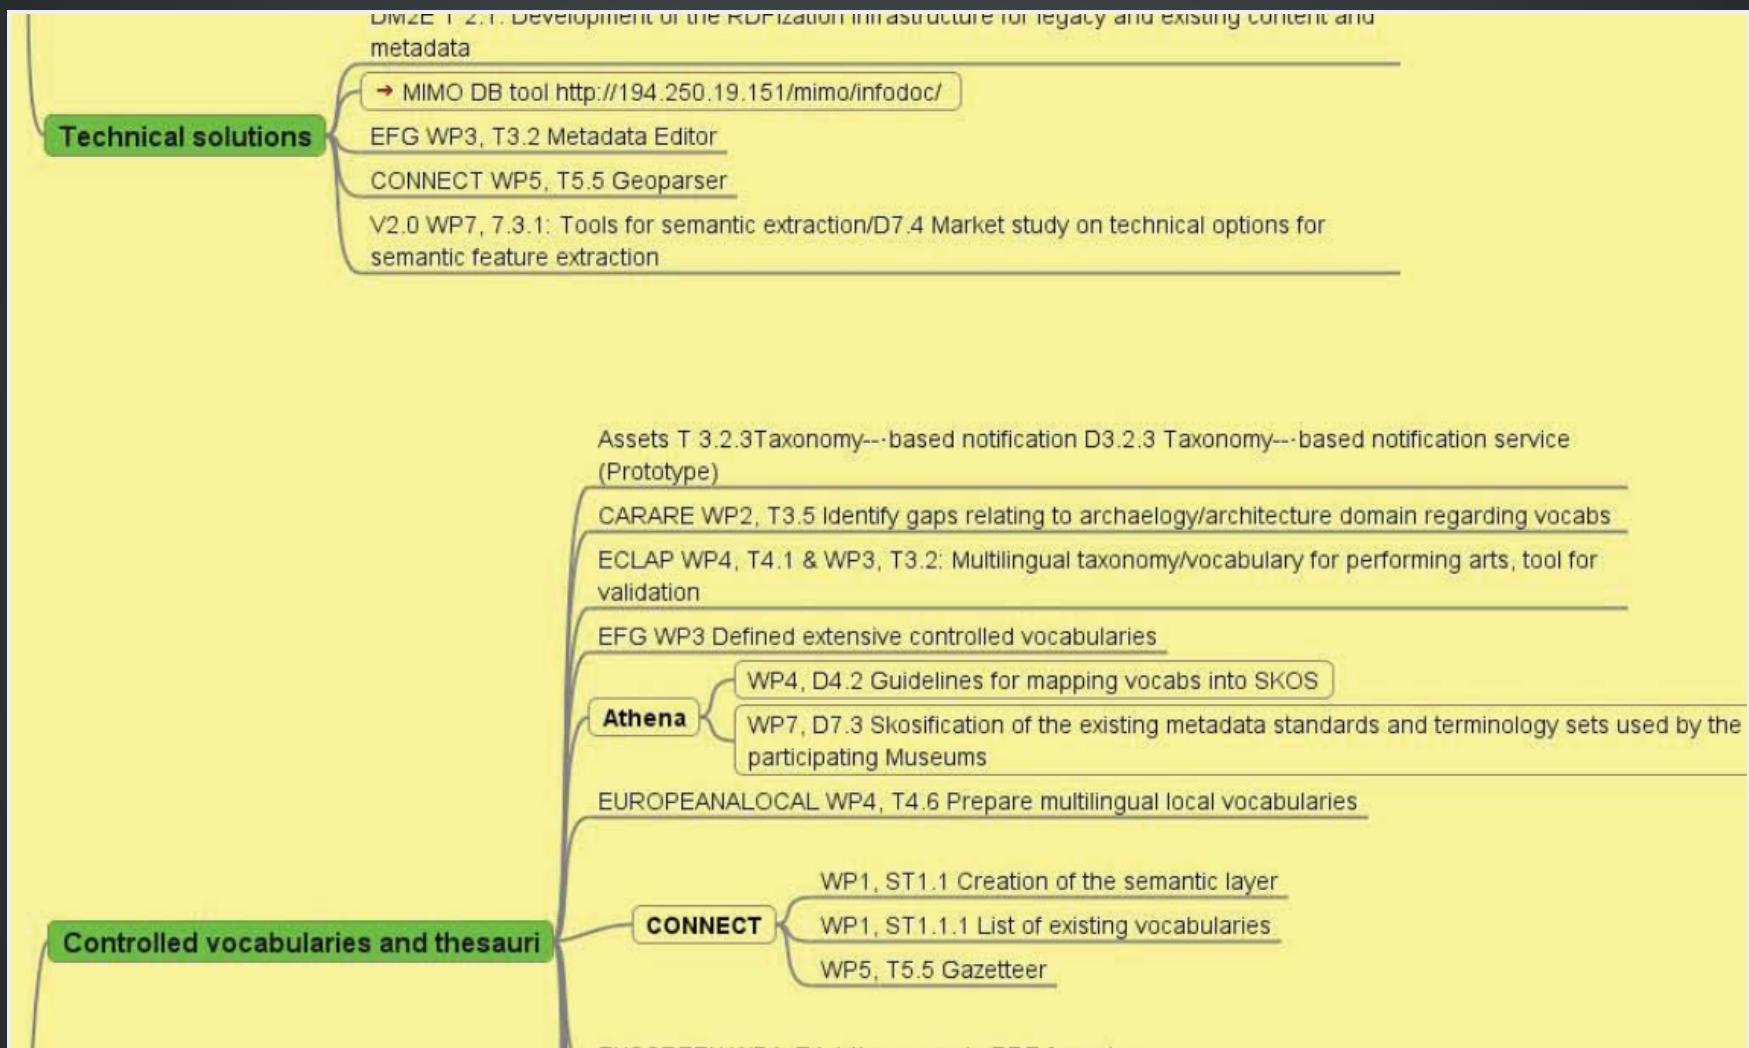

Europeana is proud to announce its first [White Paper](#): a look at the key role linked data will play in Europeana's development and in helping Europe's citizens make connections between existing knowledge to achieve new cultural and scientific advances.

Linked data gives machines the ability to make associations and put search terms into context. Without it, Europeana could be seen as a simple collection of digital objects. With linked data, the potential is far greater, as the author of the white paper, Prof. Stefan Gradmann, explains.

EUROPEANA SEM TECH MINDMAP

EUROPEANA SEM TECH MINDMAP DETAIL

RESEARCHSPACE

- A Virtual Research Environment for art research
- Funded by the Andrew Mellon Foundation
- Executed by the British Museum
- Software developed by Ontotext
- Uses Ontotext's semantic database (OWLIM)
- Provided all 2.5M objects of the British Museum as Linked Open Data (LOD)

Riton, страна Б

Description: Троянският принц Парис (Александър), седнал между Атина и Хера, е облечен в т. н. фригийско или „тракийско“ облекло – къс, препасан хитон, пътно прилепнали към краката панталони и островърхи обувки. На главата има кожена шапка с дълги, спуснати надолу краища, а в лявата ръка държи жезъл. Вдясно от Парис е седналата на трон Хера, облечена в дълъг, двойно препасан хитон и мантия.

RHYTON AT EUROPEANA OPEN CULTURE

- Others make beautiful apps with your data!

The screenshot shows a mobile application interface for the Europeana Open Culture platform. At the top, there is a navigation bar with icons for Home, Search results, Your Favourites, and Help. The title "Europeana Open Culture" is displayed next to a search bar. The main content area features a large image of a gold rhyton (a type of ancient Greek vessel) with intricate relief carvings of figures. To the right of the image, there is a "ABOUT" section with the title "Ритон, детайл" (Rhyton, detail). Below this, there is descriptive text in Bulgarian: "Между близнаките на Лето – Аполон и Артемида, в противоположната на Хера посока, е изобразена крилатата богиня на победата Нике с лента в дясната ръка. Фигурата е предадена в движение напред, крилата са разперени зад гърба, в дясната си ръка държи лента, с която увенчава победителите. Елка Пенкова." Below the text, there are sections for "Created" (kraia na IV - nach. na III v. pr. Xp.) and "Rights" (CC BY license icon). There is also a "GENERAL LINK" section with a link to "Институт за балканистика с Център по тракология" and a "View in Europeana" link. At the bottom, there are social sharing icons for "connect", "favourite", "comment", and "share".

BULGARIANA COLLECTION FEATURED IN OPEN CULTURE

- And publicize it for you to an audience you couldn't reach!

Bulgarian Collection Featured in Europeana's First Free iPad App

June 5, 2013

[Europeana Released its First Free iPad App](#) called Europeana Open Culture. It is an engaging application featuring 350,000 images from selected Europeana collections, broken down in 5 categories: Maps and Plans, Treasures of Art, Treasures of the Past, Treasures of Nature and Images of the Past.

Jill Cousins, Europeana Executive Director says: "We're really pleased to launch the first ever Europeana app. By downloading Europeana Open Culture, more people can now explore, share and have fun with Europe's cultural heritage"

We are really proud that ancient Bulgarian treasures were selected for this first iPad application! The app showcases ancient gold items of significant historic value, published as part of the [Bulgarian.eu collection](#) "Bulgarian Heritage: Pra-historic and Thracian Civilizations". These items were contributed by the Institute of Balkan Studies and Thracology, Bulgaria (Prof Dr Valeria Fol) and published by Ontotext and <http://bulgariana.eu> as part of a project funded by the Bulgaria-Korea IT Cooperation Center (ITCC).

EUROPEANA CREATIVE

- EXPLORE THE EUROPEANA LABS ONLINE PLATFORM
- FIND OUT HOW TO PROVIDE & USE CULTURAL HERITAGE CONTENT
- TAKE ON OUR OPEN INNOVATION CHALLENGES
- BE INSPIRED AND BUILD YOUR OWN APPS AND GAMES

Culture.si photo library, Slovenia. Photo Miran Kambič

Europeana Creative explores new ways to engage with Europe's digital cultural heritage for business, education and entertainment. It seeks creative entrepreneurs to push Europe's rich cultural heritage into the new media era. Europeana Creative develops innovative applications that are focused on education, tourism, social

networks and design. In open innovation challenge events, developers, creative entrepreneurs and cultural heritage experts meet to identify, incubate and spin off viable projects.

Europeana Creative has 26 partners from 14 EU member states and is coordinated by the Austrian National Library.

europeanacreative.eu

Europeana Creative is co-funded by the European Union, through the ICT Policy Support Programme as part of the Competitiveness and Innovation Framework Programme (CIP).

ENABLING CREATIVES TO WORK WITH CH DATA

- Pilots by eCreative partners
- Open challenges, growing to incubation support
- Help with collection data, content reuse, Europeana APIs, creative workshop ideas...

Pilot → Challenge → Spin-Off

1. Create pilot project in each thematic area
 - Cooperate on technical, business and content issues
2. Bring each pilot to mature state as rapidly as possible
3. Launch creative industries Challenge in each area
 - Demonstrate APIs & infrastructure along with pilot
4. Incubate most viable project of each Challenge
 - Decrease time-to-market by providing spin-off with business, technical and design coaching & marketing support
5. Facilitate additional projects through outreach campaign

IN 5 PILOT AREAS: TOURISM, SOCIAL NETWORKS, DESIGN, NATURE, HISTORY

ONTOTEXT IN EUROPEANA

Ontotext works on fundamental backend technologies important for KPIs

Ontotext contributes to 3 KPIs of Europeana in 2014

March 28, 2014

The [Europeana Business Plan 2014](#) was published on 12 March 2014.

Three of the Key Performance Indicators in the important Product Development section (see p.30) are being implemented by Ontotext within the frame of the [Europeana Creative](#) project:

- An OAI-PMH service to allow others to use EDM data in bulk
- Semantic repository (triple store), synchronized with the EDM data
- A SPARQL semantic querying endpoint

OAI and SPARQL access will be key new interface services in the upcoming Europeana Labs, complementing the existing Europeana API.

Additional notes about these key services:

- The Open Archives Initiative Protocol for Metadata Harvesting (OAI PMH) is the fundamental protocol for aggregating data from repositories. It is used by Europeana to ingest data from aggregators and providers. However, Europeana itself does not provide an OAI server until now, which is an important omission. The Europeana OAI server will be useful to keep the semantic repository up to date with new Europeana data; and to other large-scale consumers and aggregators
- Ontotext developed and hosts the Europeana semantic repository on OWLIM at <http://europeana.ontotext.com>. It allows display and downloading of RDF triples and custom views for each Cultural Heritage Object: [portal view](#) and [graph view](#). We are currently working on the task of synchronizing through the OAI protocol.
- The repository provides complete SPARQL 1.1 support and a Full Text Search interface. While more Europeana objects are being semantically enriched, this querying interface will be useful to pose graph (relation-oriented) queries that cannot be answered through the existing Europeana API.

An example of the EDM graph view:

EUROPEANA OAI AND SPARQL

Ontotext creates OAI PMH server for Europeana

- So we or others can download objects in bulk

Ontotext hosts the Europeana semantic data (EDM) in OWLIM

- <http://europeana.ontotext.com/sparql>
20M objects, 1.5 years old
- <http://europeana-test.ontotext.com/sparql>
working with Europeana to update it
- Provides SPARQL querying

SPARQL 1.1 QUERIES

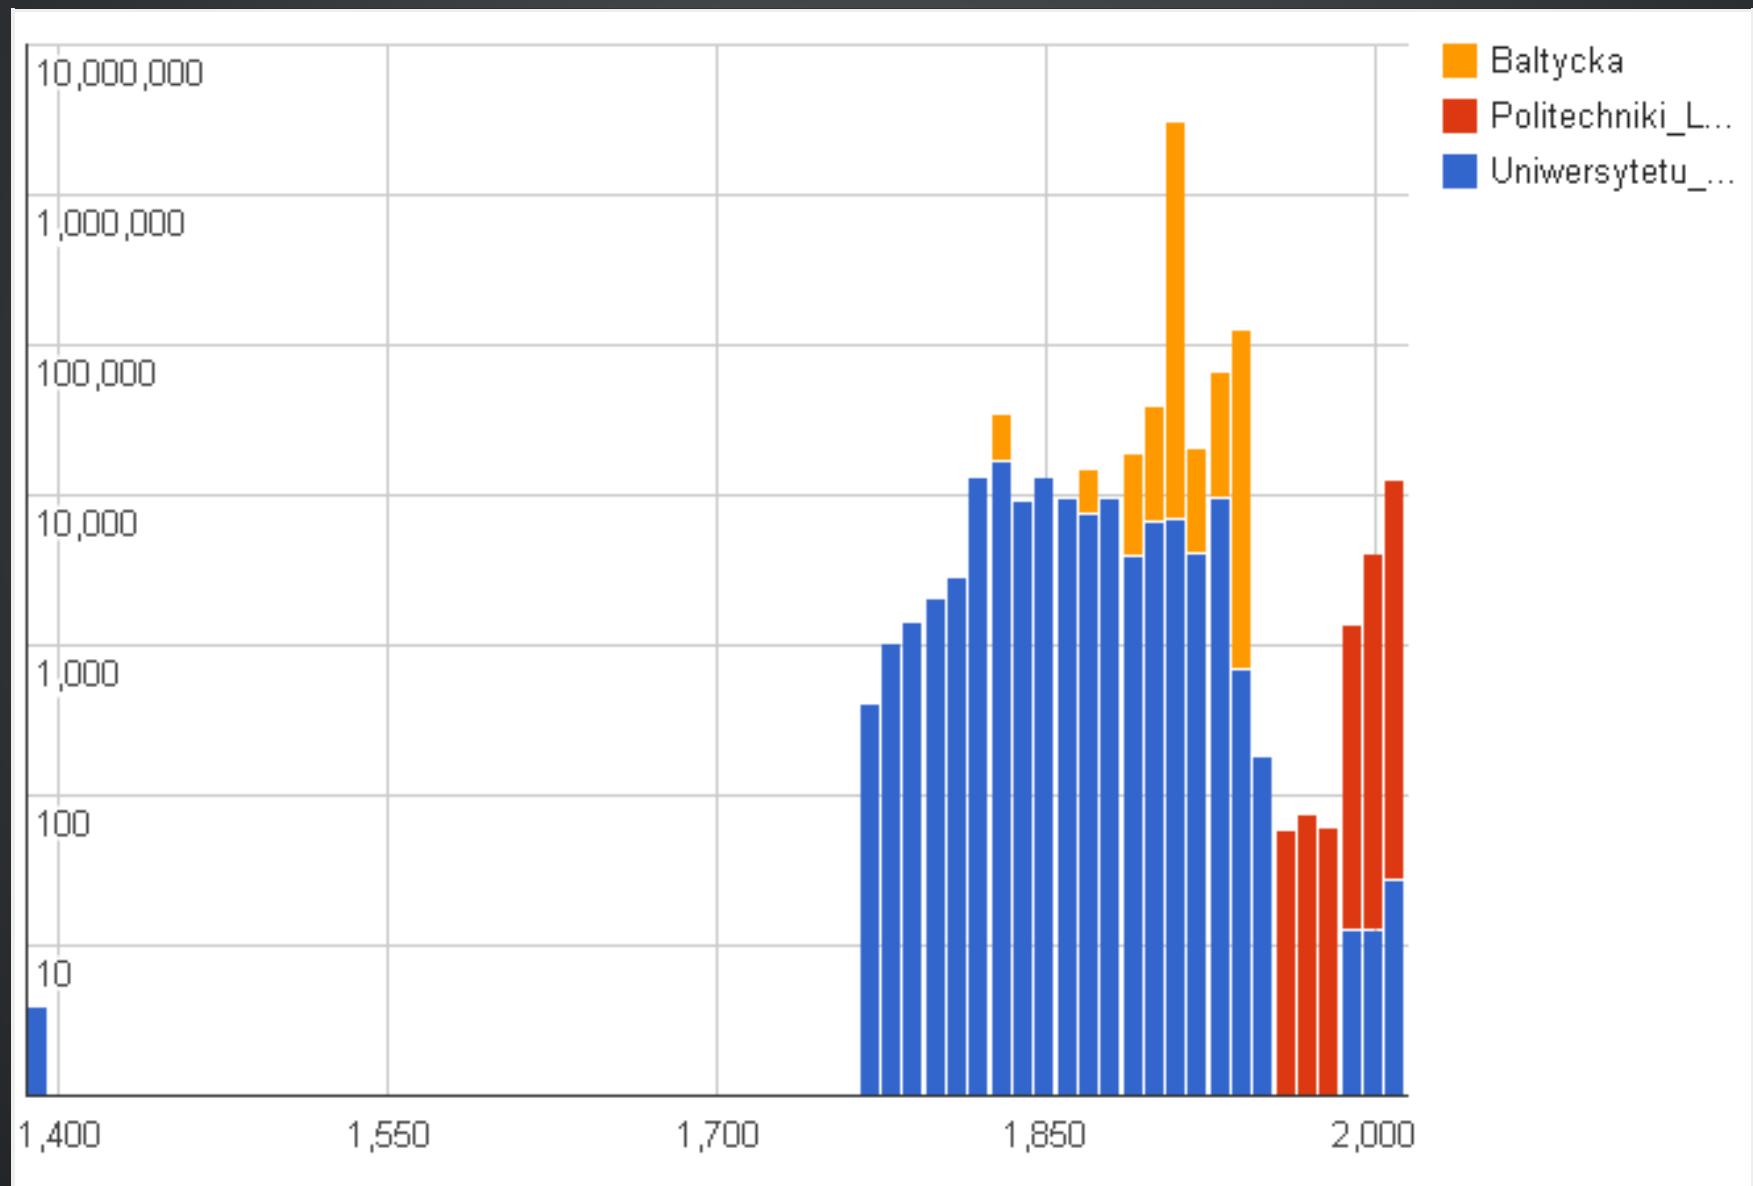

Eg Polish Periodicals by library and decade

<http://europeana-test.ontotext.com/sparql>

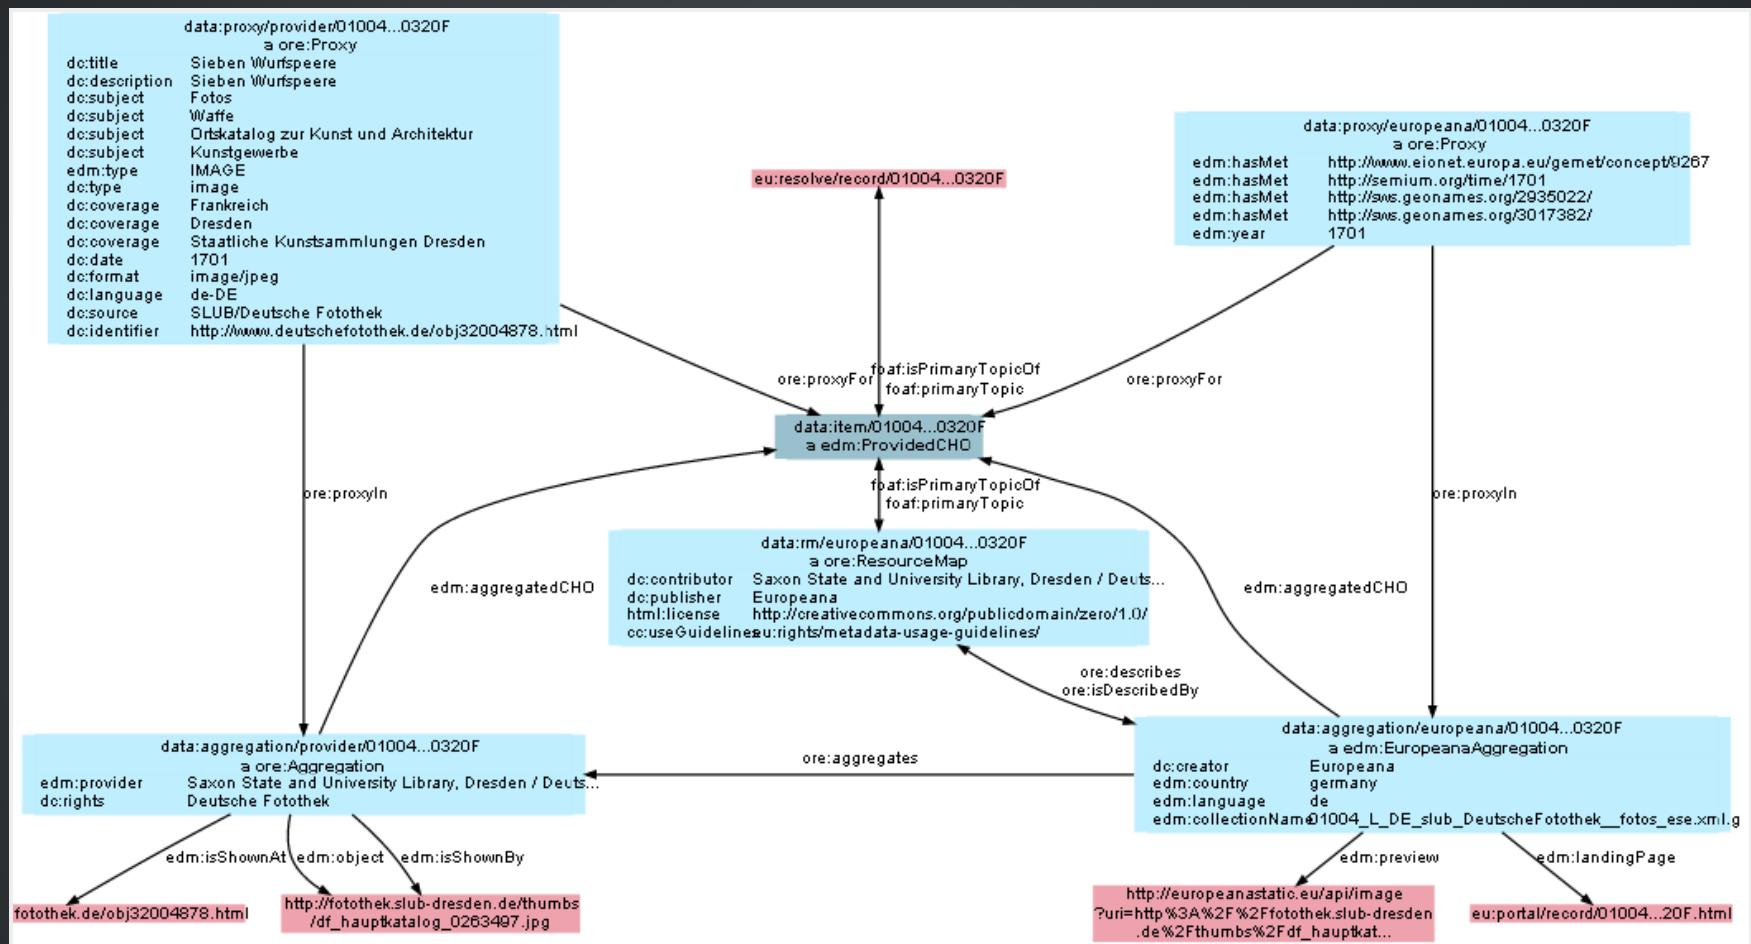

```
select
  ?date
  (sum(?n1) as ?Uniwersytetu_Warszawskiego)
  (sum(?n2) as ?Politechniki_Lubelskiej)
  (sum(?n3) as ?Bałtycka)
{
  ?x dc:type 'periodical'@en.
  ?x ore:proxyIn edm:dataProvider ?dataProvider.
  ?x dc:date ?date2.
  bind (xsd:integer(concat(substr(?date2,1,3),'0'))) as ?date
  bind (if(?dataProvider='e-biblioteka Uniwersytetu Warszawskiego',1,0) as ?n1)
  bind (if(?dataProvider='Biblioteka Cyfrowa Politechniki Lubelskiej',1,0) as ?n2)
  bind (if(?dataProvider='Bałtycka Biblioteka Cyfrowa',1,0) as ?n3)
} group by ?date order by ?date
```

SPARQL ANALYTICS

Eg Polish Periodicals by library & decade (you can [jsfiddle](#) with it)

EDM OBJECT GRAPH

GETTY VOCABULARIES

Well-known and important cultural heritage thesauri:

- Art and Architecture Thesaurus (AAT)
- Thesaurus of Geographic Names (TGN)
- Unified List of Artist Names (ULAN)
- Cultural Object Names Authority (CONA)

Ontotext is publishing them as Linked Open Data:

<http://vocab.getty.edu>

- AAT LOD published in Feb 2014, already sees numerous use cases
- First industrial use of the latest ISO standard on thesauri: ISO 25946
- Contributed to ISO 25946 ontology
- Special session at CIDOC Congress (Dresden, Sep 2014)

USE OF ISO 25946 IN GETTY LOD
